

# THE ROSWELL DAILY RECORD.

VOLUME 1.

ROSWELL, NEW MEXICO MONDAY EVENING, NOVEMBER 16 1903

NUMBER 208

*The Citizens Will Caucus Tonight and the Democratic Citizens will Caucus Tomorrow Night.*

## SERVICE RESUMED

POLICE PROTECTION GIVEN THE STREET CAR COMPANIES.

## CASES OF VIOLENCE

Cars Stoned and Passengers Injured Although Under Protection. Clarence Darrow Condemns Carter Harrison for Preserving Order.

Chicago, Nov. 16.—With the announcement by the railway officials that its Wentworth Avenue line would be operated on the regular schedule and the movement of cars resumed today, Police in force massed about the company barn, while a detail rode on every car. It is announced that no cars will be run on the Cottage Grove avenue line today but that by Wednesday, the company will open all lines given protection.

The reports issued that union men are going over to the company are declared by the union leaders to be falsehoods. They say the contrary is true. Non-union men have been placed in the State street power house and strike breakers smuggled into the barns.

Cases are becoming numerous where passengers who ride under police protection on cars manned by non-union crews have, it is alleged, been beaten and stoned by strikers sympathizers.

The strikers are making much of the statement of Clarence Darrow, one of the counsel for the miners in the big anthracite strike, and who had been one of Harrison's strongest supporters politically. Darrow declared that if the strikers were beaten Mayor Harrison would be responsible by reason of the arrangement whereby police ride on all the cars being operated.

Several cars completed the run of Washington street to the terminus with but little difficulty. Others were less fortunate. Serious delay was caused by a car of the Union Traction Company manned by a union crew stopping on the track. Teams quickly packed around the car and the blockade lasted for a half hour.

## HORRIBLE MURDER.

Prominent Young Lady Meets Terrible Death.

Peoria, Ill., Nov. 16.—A message just received here announces that Miss May Henneger, a prominent young lady of Bishop, who had supposedly eloped, had been found murdered in the pasture near her home. The body was horribly mutilated and half buried.

Fred Strubble, the neighbor's son with whom the girl was thought to have eloped cannot be located. They were last seen together at a social given at a country school house. The condition of the girl's body indicated that there had been a desperate struggle.

## W. C. T. UNION.

Holding National Convention in Cincinnati.

Cincinnati, Ohio, Nov. 16.—The National Convention of the Woman's Christian Temperance Union today went to Hillsboro, sixty-one miles from here, where the crusade against intemperance began in 1873, and where some of the original crusaders still reside. Among them is Eliza Jane Thompson, who became known as "Mother" Thompson. She is in her 88th year, unable to attend the convention, so the convention went to her.

The delegates visited the site of the old "Crusade church" on which a fine edifice has been erected and went over the route taken by the cold winter morning in '73. After service in Memorial Hall Presbyterian church, and the visit to "Mother Thompson," the delegates took luncheon and then at three o'clock resumed sessions.

## ALL BOW TO KING EQUINE.

The Automobile a Thing of Secondary Consideration.

New York, Nov. 16.—The nineteenth annual exhibition of the National horse show association is on. Madison Square Garden below is filled with hundreds of thousands of dollars' worth of horses and above is draped with bunting in orange and black. Between is the show, and until next Saturday night the great arena will be a place of enthusiasm and expediency.

For the time being the automobile is a thing of secondary consideration. This is the time to be a horse, and the horses seem to know it. With heads high and nostrils distended, straight limbed and with pride in every curve of their handsome bodies, they dash in and out at the bugle's call.

The day is for horse lovers and the night is society's. At all times now the garden will be a place of prancing horses, of beautiful women, of enthusiastic men, of fine feathers and blankets, of straw and grooms, of numbers, traps, tanbark and hurdles, harness and saddles, to say nothing of boxes and the promenade crowded with fashion.

In nearly all of the classes there is a noticeable increase in the number of entries and also in the number of horses showing pedigrees that include long lines of prize winners. The hackney classes have fallen off in their entries, but Grithorpe Playmate, champion of last year, is on hand with his old competitor Robin Adair II to meet him again in the challenge cup. The studs of E. D. Jordan and the Chestnut Hill stock farm are among those well represented in this class.

The carriage horse classes are well filled and the competition promises to be keener than ever before, especially as the champions of other years are ineligible in the open classes, and over forty new comers are entered, their chances of blue ribbons being better than ever before. In the thoroughbred class, Belmar, Tom Kenny, St. Nicholas II, and Ildrim are the candidates.

There are some good ones among the harness horse classes, and, although the number is not so great as last year, their quality is quite as high, if not higher. The medium weight horses also are a fine lot. Flower of Lynwood being ineligible, the second prize winner of last year, Lord Golden II is entered, and has some other good ones to compete with him, among them being Mrs. E. R. Ladew's Buster Brown, Reginald Vanderbilt's Sporting Beauty, J. F. Carlisle's Promoter and Underwriter, and J. W. Ogden's Champion.

In horses and appointments the competition is sure to be keen, as the ribbons are highly prized, and the showing in the ring is one of the features of the exhibition. The entries are greater than last year, and some good ones are among the competitors. There is a decided increase also in the number of tandems. Ponies are out in full force and the number of saddle horses is also larger than ever before. Hunters and jumpers are as well represented as ever and some of the classes are altogether too well filled, as the process of selection will have to be in lots.

## KITCHENER HURT.

Has Leg Broken in Two Places While Riding.

Simla, India, Nov. 16.—Lord Kitchener, commander in chief of the British forces in India, had his leg broken in two places while riding through a tunnel on his way to his country home. The horses became frightened, and collided with the walled side. Some coolies passing through found him there, lying helpless, and brought him here. He is reported as doing well.

## PROSECUTION RESTS

TESTIMONY FOR THE PROSECUTION CONCLUDED SATURDAY

## STATEMENT OF DEFENSE

Court Convened at 8 O'clock this Morning and the Taking of Evidence for the Defense is Begun.—Johnny Wilson is on the Stand.

As we went to press Saturday, Mrs. M. D. Minter had just begun her testimony. She testified that the defendant told her at her home in this city that if Will Rainbolt ever bothered him he intended to kill him, as Rainbolt had killed one of his best friends. Mrs. Minter said Hendricks made the statement in January the month before he killed Rainbolt, but she could not remember the year. Counsel for the defense made a motion to strike out the evidence, but the court overruled the motion.

F. C. Hunt, the assistant city engineer, was the next witness, and he introduced a plat of the premises where the homicide occurred. Counsel for the defense objected to the introduction of the plat in evidence as the plat was taken Friday and the homicide occurred in 1901. Court overruled the motion and Mr. Hunt was on the stand until 7:30 o'clock when the prosecution rested their case.

The testimony of the witnesses for the prosecution was substantially that Rainbolt was a deputy sheriff and he discovered that Oliver Hendricks, a brother of Nath Hendricks, was carrying a six-shooter, and he arrested him and told him he would place him in jail until the next day when Judge Lea would hear the case, and Nath Hendricks remonstrated and wanted to stand good or go on his brother's bail until morning, but Rainbolt said he would lock him up and as he started off with the prisoner Nath Hendricks fired the fatal shot killing Rainbolt and immediately after the homicide escaped on a horse with his brother. Witnesses for the prosecution denied that Rainbolt used bad language and threatened the life of Oliver or Nath Hendricks at the dance at the time of the arrest, or that Rainbolt was intoxicated.

Mr. Beall of the defense made his statement to the jury Saturday night after which court adjourned until this morning. Mr. Beall in his statement said in part: "That they expected to show to the jury that Hendricks acted in the defense of the life of his brother and in defense of his own life when he fired the fatal shot and that Rainbolt was intoxicated at the time and used bad language threatening the life of Oliver Hendricks, and that they would prove that Rainbolt was quick with a gun, and that the escape of Nath Hendricks and his living under an assumed name in North Dakota was not because he had committed a crime, but because he knew if he was apprehended he would be in the hands of his enemies, the relatives of the deceased man. Mr. Beall concluded his statement at 8 o'clock Saturday night and court opened this morning at 8 o'clock, and Tom Davis was the first witness called by the defense. He was cross questioned for about one hour.

Will Pendergrass was the next witness called, and he was on the stand for about three hours under a fire of cross-examination. He testified as to the arrest, and said in part that Will Rainbolt had his gun in his hand and said to Oliver Hen-

dricks, "D— you, get into the buggy or I will shoot your d— heart or liver out. Pendergrass denied that he said his evidence would clear Hendricks of the charge.

Johnny Wilson was the next witness called, and he had only testified a few minutes when court adjourned until 2 o'clock.

Court opened promptly at 2 o'clock and Johnny Wilson is on the stand as we go to press.

## THREE KILLED.

Big Fire in Cleveland Causes Fatalities.

Cleveland, Ohio, Nov. 16.—Three men were killed and two injured as the result of the largest fire this city has suffered in many months, early today. The dead are Robert Duffy, James Schweda, Robert Reed. The men were caught under a falling wall.

The fire broke out about three o'clock this morning in the large street car barn of the Cleveland Electric Railway Co., from an unknown cause, but believed by some to be of incendiary origin. There were a hundred motors stored in the building of a value of probably two thousand dollars each. The loss of the building was thirty thousand dollars. The firemen are still searching the ruins to see if there were any more fatalities.

## THE MAFIA.

Organization Suspected of Mistreating Italian Priest.

New York, Nov. 16.—Rev. Joseph Giringione, rector of the Italian church of the Immaculate Conception of Williamsburg, a suburb of this city who disappeared from his home under suspicious circumstances last Friday night, was found early today by a policeman in East 51st street, in a ravine, raving wildly in Italian. He is now in a hospital. He exclaimed as he fell into the arms of the policeman, "They robbed me and will kill me, protect me." His wrists had apparently been bound with rope.

The priest had incurred the enmity of the Italians by a crusade against vice, and on Friday left home in company of two men, who said they were from police headquarters where the priest had reported threats against his life. Nothing was heard from him until today.

## Want Sabbath Preserved.

Harrisburg, Pa., Nov. 16.—A more rigid observance of the Sabbath and the abolition of all public amusements and entertainments on that day is the common desire of the several hundred churchmen and others who gathered in this city today for the State Sabbath convention. Ways and means for promoting the desired reforms will be exhaustively discussed during the two days the gathering will be in session.

Following the close of the Sabbath convention the annual meeting of the Pennsylvania National Reform Association will begin and many of the visitors will attend both meetings.

## TO PROTECT BIRDS.

Proposed to Interest School Teachers Throughout the Country.

Philadelphia, Pa., Nov. 16.—As a result of the action to be taken at the convention of the American Ornithologists' Union, which began in this city today, a strenuous crusade is to be undertaken to protect the birds of North America. Working in conjunction with the various Audubon societies throughout the country the union purposes to make organized efforts to have stricter game laws passed in the various states and to see that these laws are rigidly enforced. The co-operation of women's clubs is sought and it is also proposed to interest school teachers throughout the country in the movement. The union cites the figures to show that hundreds of thousands of birds are killed annually this wanton destruction, unless measures are taken to check it, must necessarily result in the extermination of many species of feathered warblers within a short time.

## CUBAN BILL

COMES UP IN THE HOUSE OF REPRESENTATIVES.

## AMMENDMENT OFFERED

Williams of Mississippi Speaks and Creates Democratic Applause.—Would Vote on Thursday on the Bill.

Washington, D. C. Nov. 16.—When the Senate convened today, several petitions protesting against Smoot retaining his seat were presented, and were referred to the appropriate committee. After a short executive session, the senate adjourned.

Washington, Nov. 16.—The House of representatives began consideration of the Cuban reciprocity bill today. Dalzell, rep. of Pa., offered a resolution providing that the bill reported from the Ways and Means committee be considered to the exclusion of all other business until four o'clock, Thursday, when a vote shall be taken. Williams, dem. of Miss., speaking for the minority, declared it was the most drastic rule ever introduced in the house, and said that it shut off all right to perfect the bill. He said that the minority desired to offer an amendment which strikes out the double barrelled pledge as contained in the bill. This was greeted with great applause on the Democratic side. This amendment tears down one-fifth of the schedules built up by the Republicans.

## B. & O. RAILWAY REPORT.

A Synopsis of the Report of the President Given To-Day.

Baltimore, Md., Nov. 16.—The president of the Baltimore & Ohio railway today made his annual report before the directors of the road from which the following extract is taken:

Baltimore, Nov. 16.—The 77th annual report of the president and directors to the stockholders of the Baltimore & Ohio Railroad Company was submitted at the annual meeting held today.

The report shows the largest gross and net earnings from operation in the history of the company. In order that a proper comparison could be made with report of preceding year, a revised classification of expenses was adopted, to harmonize more closely with the distribution of expenses used by the Interstate Commerce Commission, and in all instances where figures for 1902 are quoted in the report, the differences are due to this change in the classification.

The mileage of the Baltimore & Ohio Railroad company, including the Baltimore & Ohio Southwestern railroad, on June 30, 1903, was 3,325 miles, and the mileage of the entire system was 4,397 miles. The gross earnings of the entire system, including the controlled or affiliated lines, were, \$68,178,676.36, and the net earnings \$25,438,764.33. The percentage of expenses to earnings was 62.69.

The decrease in the expenditures for maintenance of way and structures did not result in the lowering of the standard but was secured mainly through the perfecting of an organization which resulted in a reduction of forces and saving of material. Another reason for the reduction was that a great deal of heavy work was done during the previous year.

The wages in all departments of the service were increased during

the year to accord with the conditions prevailing throughout the country, and in making these increases, not only were wages adjusted to agree with similar practices on other roads, but adjustments were made looking to the proper compensation with regard to the responsibilities of the position occupied and the services performed.

## THE MAINE.

The Big Battle Ship Has Arrived at Colon.

Washington, D. C., Nov. 16.—The Navy department has received a cablegram announcing the arrival of the battleship Maine at Colon.

## To Re-Try Miller and Johns.

Cincinnati, Ohio, Nov. 16.—The case of D. V. Miller and J. M. Johns, indicted for conspiracy in the postal scandal and whose first trial resulted in a disagreement of the jury, was called for re-trial today before Judge Thompson of the United States Circuit Court.

## Field Trials for Pointers.

New York, Nov. 16.—Holmdel, N. J., thirty-five miles from this city, was today the rallying place of field dog fanciers from many states. The occasion was the opening of the fourth annual field trials under the auspices of the Pointer Club of America. The entry list this year is large and of a high class and as the preserves are reported well stocked with quail the trials are expected to be very successful.

## THE MARKETS.

To-Day's Quotations in the Trade Centers of the Country.

CHICAGO, Nov. 16.—Cattle

Good to prime steers	\$4.90 @ \$5.60
Poor to medium	\$3.25 @ \$4.70
Stockers and feeders	\$2.00 @ \$4.00
